No. 32 OCTOBER 2005

## EDITORIAL

Another year draws towards its close and most of the harvesting and storing, freezing and jam-making should have been attended to by now. We still have our AGM to come and also hope to do some of the winter pruning in November. Plans are already afoot for the 2006 season and there are dates to be pencilled into your diaries. Please note all outside activity in the November - to - March period has the proviso "weather permitting"!

The Agenda and for the AGM is enclosed. If anyone feels they would like to take on any of the jobs done by officers or committee members, the current incumbents would be only too delighted to step down (most of us have been 'going' for the best part of ten years now). Just call the Secretary and offer.

Finally a health tip (oh no, not another!): deep red apples contain more antioxidants than pale ones, so are said to be better for you.

*Diana Davis*

## PROGRAMME 2005

**SATURDAY 12<sup>th</sup> NOVEMBER.** Study Centre, Harlow Carr.

10.30 Executive Committee meeting

13.30 AGM and Talk by Trevor Rogers; 'Was the Victorian period the Golden Age for Fruit Growing?'
